# Pub Social Speaker – Helite Air Bags

## Tuesday 14th March, 2017

Nick Houlton joined us at our Shippon natter night on Tuesday 14<sup>th</sup> March.

Nick's talk was a lively and fun look at new technology for motorcyclists which included BMW Assist, RealRider, and the development of body worn airbags. It also included practical demonstrations of the various technologies different manufacturers are offering, with a deeper dive into those offered by Helite.

Nick also shared his experience of using these on Track, on Road, and on Terrain with photos, videos and customer testimonials.

A prize draw was held and Peter Mapes won one month's rental of a Helite TT Airvest and all club members can get a 10% discount off the vests and jackets that they sell, although there is also a rental scheme which will allow you to try before you buy.
