Short Notice Ride (SNR)

Portsmouth Historic Dockyard

Friday 10th March, 2017

Well done to the 'Magnificent Eight' who took part in the SNR to the Portsmouth Historic Dockyard today. We all agreed to use the buddy system that worked well and of course all of these rides welcome pillions and Gill Mossman joined us on this SNR. The weather was mostly dry but quite misty and foggy on the way back.

We met at the Tothill services just off the A34, then Steve led the ride down along a very engaging and beautiful route down some very small and green lanes finally ending up for a well deserved break at Loomies, with tea and bacon helping resuscitate the "team".

We then set off along faster roads to Gunwharf Quays where we circled the car park for some time as the majority of bike spaces were used but eventually found some spaces at a reasonable £1 for the day.

The Historic Dockyard is well worth a visit on any day but be warned there is so much to see. The new Mary Rose exhibit is very good well worth a visit having watched it from its discovery and lifting phase to its semi dry structure today.

Once we reached the Dockyard everyone headed to their areas of interest and as usual made their own way home afterwards.

New SNR stickers were distributed to all attendees
